OBJECTIVE

Information Systems student at Drexel University with hands-on experience in business analysis, SQL, Python, and Agile methodologies. Skilled in process mapping, requirements documentation, and data-driven decision making. Seeking an entry-level Business Analyst role where I can apply analytical and technical skills to drive process improvement.

EXPERIENCE

AseFinTech — HR Onboarding Optimization, Philadelphia, PA

June 2026

Business Analyst (Portfolio Project)

- Simulated a 1,000-row new hire behavioral dataset across 12 variables to analyze a 38% probation failure rate and 27% resignation rate within the first 90 days
- Built a Requirements Traceability Matrix (RTM) linking 6 business requirements to user stories and test cases to ensure proposed solutions were measurable and actionable
- Queried the dataset using SQL and Python to calculate KPI averages, then visualized findings in a Tableau dashboard showing probation outcome trends by department

Moon Restaurant — Food Delivery App Optimization, Philadelphia, PA

May 2026 – June 2026

Business Analyst (Portfolio Project)

- Identified a 12% session abandonment rate by analyzing a 500-row behavioral dataset across 21 variables using SQL and SQLite, pinpointing the mandatory login stage as the primary drop-off point
- Documented Agile user stories and acceptance criteria for two features, Guest Checkout and Cart Auto-Save, following standard BA methodology with clearly defined scope and out-of-scope items
- Built a Power BI dashboard tracking KPIs including cart abandonment rate, average session time, and conversion lift from ~21% to ~58% following feature implementation

Estee Lauder, Bristol, PA

September 2023 – March 2024

Product Area Manager Co-op

- Designed and led training sessions for a team of 15 staff members on workplace safety and quality assurance, driving a 40% improvement in employee compliance
 - Collaborated with cross-functional teams to implement a hazard identification process that decreased potential risks by 25%
-

EDUCATION

Drexel University, Philadelphia, PA

Expected September 2026

Bachelor of Science in Information Systems

- Relevant coursework: INFO310 Human Centered Design (Figma), INFO324 Agile Process & Product (HTML/CSS/JS), INFO210 Database Management (SQL), INFO371 Data Mining (Python/Pandas)
-

SKILLS

- Programming: Python, SQL, JavaScript, HTML/CSS, Java
